was received yesterday by a reeder of thoroughbreds from a citizen of Philadelphia asking for prices on and description of a carload of good horses. A telegram was sent in reply last night. Fort Worth is becoming a fine horse market.

A number of cattlemen were seen yesterday and asked to give their opinions or the condition of the market, and what they thought of the outlook. Without exception, they agreed that prices were low, but only they agreed that prices were low, but only what could be expected. The depression in prices existing now is chronic at this time of the year. It is generally in August that the Northern markets are flooded with grass-fed cattle, and prices naturally go down. As soon as corn-fed cattle appear. prices will at onee appreciate, not only for the corn-fed, but for the grassers as well. The cattlemen are by no means discouraged. dieving that the present range of price ill soon give way to a much higher level

As soon as the news reached this place a good-sized rush was made by prominent Cherokees, including ex-Chief Bushyhead, J. S. Indications are that the Strip will soon be literally covered with Chero-kee cattle, and a large portion of the best land of the country will be taken up as homesteads by citizens of the Cherokee Na-

Special to the Gazette. Van Horn, Et Paso County, Tex., Aug. 20.—A heavy rain fell in this vicinity this afternoon between 3 and 5 o'clock, extending from Boracho station to Sierra Blanca. The rain was one of the heaviest to cover such a large territory that has been known to have failer in these parts for years, and the people are inclined to attribute its co-piousness to the scientific experiments of Gen. Dyrenfurth's party near Midland. A great deal of water is now on the ground, and ranchmen say it will insure a good range for cattle for many menths.
